

As Buckeyes, we all have a connection to the birthplace of aviation. Take advantage of this special opportunity to visit the world’s largest private aircraft collection at Fantasy of Flight in Central Florida.

www.fantasyofflight.com

More than a museum, Fantasy of Flight showcases more than 40 rare vintage aircraft, flight simulators, the interactive Fun with Flight center and immersion experiences—where visitors travel back in time to Early Flight, the trenches of WWI and even on board a B-17 in a WWII bombing mission. Our Club outing will include a private hangar tour and lunch. Admission also includes an inside look into a real working restoration shop where expert craftsmen return planes to flyable condition as well as other behind-the-scenes engine and maintenance areas. Fantasy of Flight is the only aircraft attraction in the world offering daily aerial demonstrations for guests, a rare opportunity to see historic vintage planes in flight (weather permitting) and learn about the flying machines directly from the pilot.
